REPORT OF THE SCHOOL BOARD
OF RICHMOND, N. H.,
FOR THE YEAR ENDING FEB. 15, 1900.

In compliance with the law, the school board of the school district of the town of Richmond present their annual report.

As a general thing we were fortunate in securing teachers, not only for their ability to teach, but to govern their schools. Six different teachers have been employed; five manifested a marked degree of interest in their work, and sought to elevate the standard of their respective schools in all its requirements, they themselves setting forth good examples before the children and laboring with them for their greatest good. It should be constantly borne in mind that it is not so difficult to secure teachers with the education to instruct her pupils, as to govern them, and no school can be a perfect success without good order; and in order to have wholly successful schools requires the hearty co-operation of parents, teachers, committees, and scholars; they must encourage and aid each other, visit the schools and see that each is doing his or her part, throw aside all rebellious feelings, and try to make all the elements harmonious, then all will be well.

There is much besides book knowledge that makes the man or woman. A true and noble character must be cultivated to insure a high elevation in the minds of all good citizens. To attain this end there must be a beginning some-

where, and that at the earliest stage of existence. Parents who have the care and training of children must exercise judgment and understand if possible the needs of their charge; a kind word well spoken will do more for the child than any other punishment. We see far too many children travelling the road of wretchedness and vice, where if they had that home training they should have, would be reckoned among our most honored citizens.

Our aim has been to lengthen our schools; some have responded nobly to our efforts, others have stood back and have not made an effort to receive the benefit intended. There has in some instances been ill-feeling in regard to leaving the transportation of the scholars to the parents. The school board have in all cases paid all that was due to each scholar for traveling fees over the one and one-half miles as voted at the last school meeting.

Those who have kept their scholars at home have deprived them of the best advantages the town and school board could provide for them, and the scholars are the losers. We have had several weeks more school the past year than ever before, which by some is *not* appreciated. The attendance in some of the schools has been very irregular, and this must be more the fault of the parents than the scholars. In some instances it may be unavoidable, but in many cases it was wholly unnecessary.

We have put in new Arithmetics which were much needed, also new Geographical and Historical Charts, which are of great assistance to both teacher and scholars.

No. 6 schoolhouse has been shingled the past year, and minor repairs on other houses. Many more repairs are needed another year.

LUCY J. FREEMAN,
LUCY W. AMIDON,
